

SCHOOLS ANIMAL CARE AND ETHICS COMMITTEE

Complaints/grievances made to school about mistreatment of animals

The following flowchart assumes schools are using a:

- Complaints Handling Policy.
- Incident Notification and Response Policy.

Any person who receives a complaint involving animals must attend to the immediate needs of any injured or harmed animals. This may be done by contacting the owner or an appropriate qualified person, such as a veterinarian or teacher with appropriate skills. The immediate support of any student must be assessed and addressed as well.
